

Sitka Community Hospital

FY17 Budget Presentation

Our Mission

Restore, maintain, and improve the health of those in our community through competent and compassionate delivery of care.

Introduction

A Message from the CEO

On behalf of the team at Sitka Community Hospital, please find enclosed the FY17 Operating and Capital budgets for your review and approval.

When I assumed the role of CEO, among the commitments I made to you were to determine where we are, to understand how we got here and to develop a solid game plan to move forward.

As a result, the FY17 budget process has been an integral part of that strategy requiring us to look more in depth at operations and continue to have the dialogue and perform the analysis that we started in earnest last year – which provides an even more definitive roadmap going forward.

Our strategy was to build a budget for the coming year to include an incremental increase in operating performance over the prior years and positive cash flow. We believe we accomplished that. And while we are not out of the woods by any stretch of the imagination, the opportunity we see for improvement is quite large and we are excited at what lies ahead.

Thank you for your favorable consideration of our FY17 Budget. With your approval, we will get to work on the new fiscal year, always with the vision in mind.... that ***Sitka Community Hospital is an integral part of the community where all individuals reach their highest potential for health.***

Rob Allen, CEO

Sitka Community Hospital – FY17 Budget

Who We Are and Where We Are

Sitka Community Hospital (“the Hospital”) is a municipal general hospital governed by a Board of Directors appointed by the Assembly of the City and Borough of Sitka. The Hospital provides acute inpatient and outpatient, long-term care and other community healthcare services. The Hospital is licensed for 12 acute care beds which includes one nursery bed and 15 long-term care beds.

The Hospital is considered to be a component unit of the City and Borough and is designated by Medicare as a Critical Access Hospital (“CAH”) which provides for cost based reimbursement from Medicare – a favorable reimbursement methodology that was part of the 1997 Balanced Budget Act to stem the closure of small, rural hospitals that were suffering under the prospective payment system that had been introduced by Medicare.

As is the case with most CAH’s, more than half of the Hospital’s revenue is generated by outpatient services. In fact, Outpatient Revenue is 67% of Gross Patient Revenue in the FY17 budget with the remainder split fairly evenly between Inpatient and Long-term Care.

The hospital’s two largest payors are Medicare and Medicaid. In FY16, 54% of the Hospital’s gross revenue was for Care/Caid beneficiaries, followed by Blue Cross with 22%, all other insurances combined at 21% and Self Pay at 3%.

Through February, 2016, the hospital income from operations was tracking better than budget despite a drop off in clinic volumes due to provider vacancies. However, due to unusually low hospital volumes in March, we enter the fourth quarter trailing budget. April’s volumes have improved dramatically with acute care days up 51% over the YTD average and swing bed are up 18%. Outpatient volumes are holding and we have 2 possible long-term admits pending which would increase the census over FY16 budget by 2.

The Hospital is developing strategic and operating improvement plans. Such efforts will drive efficiencies and effectiveness into the organization which will ultimately increase revenues, decrease costs, and increase patient/customer/employee satisfaction. It’s the perfect embodiment of the hospital mission to:

Restore, maintain, and improve the health of those in our community through competent and compassionate delivery of care.

Sitka Community Hospital – FY17 Budget

The Budget Process – Our Approach

The budget we are presenting for approval came to fruition through the collective efforts of many within the organization and across all levels. We determined early on that our end result would be a well-documented budget that was developed through a logical and methodical process. The discussions that took place in our review meetings were thoughtful, energetic and determined. And while we have a laundry list of ways in which we can improve on this process for next year, we are excited about how far we traveled in a short period of time.

Sitka Community Hospital – FY17 Budget

Where We are Going – The Operating Budget at a Glance

For FY17, we have budgeted a positive bottom line of \$3,245 which is \$1.0M better than the FY16 baseline which was developed using FY16 year to date actual results and adjusting for anomalies. This plan produces approximately \$820,000 in cash for use in reducing debt, acquiring capital and building cash reserves.

	FY14 Actual	FY15 Actual	FY16 Budget	FY16 Projected	FY17 Budgeted	\$ Variance	% Variance

Sitka Community Hospital – FY17 Budget

Cash Flow

It is anticipated that Hospital operations will generate approximately \$820,000 in positive cash flow in FY17. Of this amount, \$400,000 will be used to pay down on the line of credit to the City of Sitka. The remainder will be used to replace property, plant and equipment.

Income (loss) from Operations	\$ (973,837)

Capital - City Funded	156,192
Capital - SCH Funded	<u>263,784</u>
	<u><u>\$ 819,976</u></u>

Sitka Community Hospital – FY17 Budget

Budget Assumptions – Revenues

The following provides an outline of the major assumptions used in developing the FY17 budget:

Inpatient Revenue

- Overall inpatient volume has been projected to increase by 10% over FY16 projections but is still less than historical volumes of FY14 and FY15. The projected increase is based upon resolving process issues with admissions planning (particularly for swing bed) which has contributed to a portion of the decrease in FY16.
- As a conservative measure, we did not increase volumes in radiology and lab which typically would follow changes in IP volume.

Outpatient Revenue

- Clinic volumes are projected to increase 23.7% over FY16 projections.
- FY16 projected volumes are historically low due to provider vacancies during the year.
- FY17 volumes were developed specific to physician staffing and productivity measures of visits per day.
- As a conservative measure, we did not increase related hospital volumes such as outpatient lab and radiology.

Long-term Care

- FY17 budget assumes 11 residents which is an increase of 1 over the FY16 YTD census.
- Admit of 1.0 confirmed for 05/16/16.
- Possible that we will start FY17 with 12 residents as we have another admit pending.

All Patient Revenue Categories

- Overall price increase of 6% was included in the budget.

Other and Non-operating Revenue

- Used FY16 projection

Sitka Community Hospital – FY17 Budget

Budget Assumptions – Deductions from Revenue

Deductions from Revenue represent the amount of gross revenue that we do not collect from insurance companies and patients.

Contractual Adjustments

Contractual adjustments represent the amounts that we charge for services that are not reimbursed by insurance companies or other payors such as Medicare or Medicaid.

- Using our own historical experience, we determined a % for each major category of payors and adjusted for the impact of our price increases and known changes to payment rates from our third party payors such as Medicare/Medicaid
- These percentages were applied to the FY17 gross revenue budget assuming the same payor mix in FY17 as we have trended in FY16.

Bad Debt

Bad debt represents the amounts that we write-off because a patient is unwilling to pay their balance. (as opposed to being “unable” to pay. See Charity below)

- Historical percentage of gross revenue

Charity and Other

Charity care represents the amounts that we write-off for services rendered to patients who meet our charity care guidelines and demonstrate that through an application and approval process.

- Historical percentage of gross revenue

***Total deductions from Revenue are Budgeted at 10.8% of Gross Revenue in FY17
This means that, on average, we write off \$10.80 of every \$100.00 we charge.***

Sitka Community Hospital – FY17 Budget

Budget Assumptions – Expenses

Salaries and Benefits

Salaries and Benefits represent 69% of total expenses so a significant amount of budget review time focused on both the amount of staffing and compensation levels.

Major Assumptions :

- 1.5% wage increase
- \$100,000 budgeted to address deferred equity issues
- Full staffing (no vacancies) through a combination of employed and contract labor FTE's
